Date: July 2019

Record

Andre Hewitt, says that on 24/06/19 Steve Davison shot the highest ever club score at 30m: 322. Surpassing anything recorded at either Frozen or Flaming FITA.

Western in the Rain. Sunday 16th June

The advantage of being a coach is that you can keep your waterproofs on!

Entry Forms etc.

Debbie Horn, Secretary, Epping Archers County Association says that she has been asked to pass on the following. "When sending out entry forms, result sheets etc., could you please, where possible, send them as PDF files. This has the advantage of meaning that files can then be opened on almost any device whereas some people have difficulty with files such as Word."

Membership

As we approach the end of the Archery financial year, would anyone who has not been for a long time and/or is thinking about leaving, please cancel your standing order in favour of Epping Archers and **LET ME KNOW!**. We still get people who for some reason cannot be bothered to email when they leave. The problem is that if you stop your STO without letting me know, I have to contact you in case it is an oversight or bank error.

School Summer Holiday's.

As usual, we shall be transferring the junior club to the airfield from Monday 29th July. Note that the time is from 1630 to 1800. (i.e. sighters are at 1630, so get there before to set up and do warm ups.)

29 th July	Junior Warwick or Short Junior Warwick
5 th August	Summer Portsmouth
12 th August	Summer Clout
19 th August	3D animal shoot.
26 th August	Bank Holiday – No junior Archery
2 nd September	Back in the hall at usual time of 1815

Seniors

Please do not use the outdoor range on the above Mondays from about 1600 (setting up) to 1800. The exception is 19th August when we start setting up the 3D course at 1300 – it takes us a long time!

Seniors will be able to use the range as usual from about 1800.

Seniors may also continue to use the Abercrombie Centre but they will have to open and close the hall themselves as well as getting all the gear out and putting it away. I shall send the routine separately.

Finally.

There is usually nothing wrong with the bow except for the nut attached to the handle.

G. Tigar
